Builders Commentary

The 189FS now comes with a porta potty room under the console. This is a family-oriented center console with less emphasis on hardcore fishing and more on the water sports many families are enjoying on the water today, such as skiing, tubing, camping, or just being out on the waterways. It features more seating, cup holders, and storage to accommodate all family members, but we never forget the fishermen. It also includes molded-in rod racks and a generous live well. The bench seat in the rear features removable cushions to convert it to a nice fishing deck as well. This boat is as well rounded as the modern family.
