

Triton 206 Allure (2019-)

Price

Base Price\$49395.00

Prices, features, designs, and equipment are subject to change. Please see your local dealer or visit the builder's website for the latest information available on this boat model.

Key Features

- All composite construction
- High capacity rear insulated livewell with divider
- Oversized rod lockers
- 1 front pedestal fishing seat location
- 2 folding aft jump seats

seating found or type unknown

The middle seats give the Triton 206 Allure an unusual layout, but with the middle seats removed and the jump seats flipped down to create an aft casting deck, the 206 Allure crosses over from family fun into a fishing machine.

running found or type unknown

Captain Steve tested the performance of the Triton 206 Allure with a Mercury 250-hp Pro XS outboard.

running found or type unknown

The Triton 206 Allure was designed with fishing and family fun in mind.

Triton 206 Allure: Mission

The Triton 206 Allure is a versatile family boat with dedicated fishing features – casting decks, livewells, trolling motors, and rod storage standard. The fishing and performance heritage of Triton has the company focused on being “America’s favorite fishing boat.”

Triton 206 Allure: Distinguishing Features

- Drain plug mechanical remote
- “Dry chine” design

Triton 206 Allure: Major Features

- Seating for 6
- SeaStar hydraulic steering
- Trolling motor with foot pedal
- Rated for up to a 250-hp outboard

Triton 206 Allure: Design

deck plan found or type unknown

The optional kicker motor, shown bottom right, can be located on either side of the main engine. The flexible design allows for a swap between the kicker and the reboarding ladder.

chines found or type unknown

The chines of the 206 Allure are designed with a downward roll.

The 206 Allure has a V-hull with Triton's "dry chine" design that provides lift and deflects spray.

Triton 206 Allure: Performance

running3 found or type unknown

The 206 Allure achieved a WOT speed of 59 mph (94.9 kph) at 5900 rpm from the Mercury 250-hp 4-stroke. Triton says the majority of these models are sold with the Mercury 250 Pro XS outboard. Our test boat had the motor mounted on a 6" (15.2cm) jackplate and it was equipped with SeaStar hydraulic steering.

outboards found or type unknown

Triton's recommended power range for the 206 Allure is between 175 – to 250-hp. Both Evinrude and Mercury engines are available choices from the factory to power the boat.

The 206 Allure measures 20'6" (6.2 m) long with an 8'4" (2.5 m) beam. Empty weight is listed at 2,626 lbs. (1,191 kg). With two people, 22.8 gallons (86 L) of fuel and test equipment on board, we had an estimated test weight of 3,688 pounds (1,673 kg).

Our test boat's 250-hp Mercury four-stroke outboard motor spun a stainless-steel 14 5/8" x 21" (37.1 cm x 53.3 cm) Tempest three-blade. We wound it up to 5900 rpm, hitting a top speed of 59.0 mph (94.9 kph). Best cruise came at 3000 rpm where we saw 24.9 mph (40 kph) and a fuel burn of 6.0 gph (22.7), giving us 4.2 mpg (1.78 kpl) and a range of 214 statute miles (344.4 km), while holding 10 percent of the boat's 57-gallon (216 L) fuel capacity in reserve.

Triton 206 Allure: Acceleration

running4 found or type unknown

Quick to plane and produce a rooster tail from a dead stop, the 206 Allure also has plenty of get-up-and-go to pull a skier on the optional ski bar.

In acceleration tests, the 206 Allure planed in 3.1 seconds and ran through 20 mph in 4.7 seconds and through 30 mph in 6.6 seconds. When we decelerated quickly, the water didn't wash over the transom.

Triton 206 Allure: Acceleration Test

Time to plane: 3.1 seconds

Zero to 20 mph: 4.7 seconds

Zero to 30 mph: 6.6 seconds

Triton 206 Allure: Handling

running5 not found or type unknown

Captain Steve reported no chine walk in hard turns during handling tests.

The 206 Allure performs best when she's running faster than 40 mph (64.3 kph) on her keel pad. When conditions call for slowing down or if the wife and kids just want to cruise, the reversed chine deflects the wake and spray. The solid ride comes courtesy of construction that adheres to ABYC guidelines.

In turns or when crossing wakes, the 206 Allure felt predictable and solid. She's a fun, easy boat to drive.

Triton 206 Allure: Boat Inspection

Triton 206 Allure: Bow

bow not found or type unknown

The pedestal chair on the forward casting deck has two socket positions to best fit the individual angler with the trolling motor foot pedal. A recessed foot pedal is an option.

Forward, the bow casting deck measures 6'9" (2.0 m) at its widest point and 4'7" (1.4 m) from the trolling motor foot pedal aft to the console.

cushions not found or type unknown

When it's time to relax, twin bow cushions are available options.

trollingmotor not found or type unknown

Standard fishing features of the 206 Allure include the trolling motor.

The 206 Allure comes standard with the Minn Kota 112 trolling motor with iPilot station keeping. In the bow, there's a tool rack with space for an optional fishfinder with up to a 12" (30.4 cm) screen.

To starboard are the navigation light and outboard motor trim switches.

fishfinder not found or type unknown

Optional fishfinders that fit the bow are numerous.
straps not found or type unknown

Tie-down straps for rods retract when not in use.

In the starboard inwale, there is a courtesy light. On each side there are racks for rod butts aft and retractable bungees forward.

rods not found or type unknown

Dedicated rod storage on the centerline can accommodate 8' (2.44 m) rods.

Bow storage includes a central locker with a hatch that opens on twin gas struts and has a reinforcing panel down the middle. The compartment has dedicated space for twelve 8' (2.4 m) rods.

baitwell not found or type unknown

The aerated baitwell sits just in front of the helm console. Triton boats are factory tank-tested to ensure that all pumps are performing properly.

Outboard to starboard, just ahead of the console, is an aerated 10-gallon (38 L) baitwell with an open locker forward. The owner can opt for an insulated cooler. To port is another compartment. Both locker openings are 15" (38.1 cm) wide. The starboard side is 33" (83.8 cm) long while the port side is 47" (119.4 cm) long.

deck plan not found or type unknown

Storage on the 206 Allure includes in-deck storage and more rod storage under the cockpit gunwales. The 206 Allure comes standard with six 4" (10.2cm) pull-up cleats. We measured freeboard fore and aft at 26" (66.0 cm).

windshield not found or type unknown

The wraparound Plexiglas windshield is 4' (1.2 m) tall when measured from the deck to the top of the frame and the center section opens to facilitate passage between the consoles. Note the reflection of the metal flake paint from the console in the passenger side windshield.

Triton 206 Allure: Cockpit

cockpit not found or type unknown

The cockpit width allows for seating configurations to suit the activity. Note the handrails on top of the gunwales and the frame of the optional Bimini.

The cockpit measures 6'8" (2.03 m) wide and amidships depth is 2' (60.9 cm). With the aft jump seats and four bucket seats, there's space for six passengers abaft the windshield.

~~helm seats~~
Image not found or type unknown

One of the things we like about the seats is that passengers can turn and sit in multiple positions. The snap-in carpet and stand-up fishing top are available options.

To port, the console has a locking glovebox up top and just outboard is a 12-volt plug. Below, there's additional storage ahead of the companion's footrest.

~~rod storage~~
Image not found or type unknown

More rod storage by the passenger console can be secured with the retractable bungee (green arrow). Outboard to port, there are forward racks and a bungee to secure four 12' (3.7 m) rods and two 10' (3.0 m) rods. Down low is an open tray with a drain, a cupholder, and a tool rack. The locker in the port gunwale has space for three rods and it locks. The storage compartment in the starboard gunwale has an elasticized net.

Triton 206 Allure: Helm

~~wheel~~
Image not found or type unknown

The standard wheel for the 206 Allure is a 15" fixed base wheel. An optional tilt wheel or 17" wheels are available. Gauges will depend on engine package selected.

To starboard, the helm has an optional 10" (25.4cm) Lowrance fishfinder with space just below for a second one up to 12" (30.5cm). The steering wheel is on a fixed helm. Instruments include a speedometer with an integrated volt monitor up top to port. Down low are water pressure and trim gauges and to starboard is the tachometer with an integrated fuel gauge.

While we appreciate the craftsmanship behind the silver metalflake paint, it does create noticeable glare in the windshield in strong sunlight. For this reason, we would finish the console fronts and tops in flat black or gray.

~~breakers~~
Image not found or type unknown

The circuit breakers are all in a dedicated panel on the lower left. Just to the right is the panel with the ignition, accessory, and livewell switches and farther right is the shift and throttle.

The 206 Allure also comes with dedicated space for controls for an optional kicker motor. Below the throttle control is a draining storage tray.

Triton 206 Allure: Aft Deck

jumpseats

With the jump seat backs down and the livewell between them closed, the aft casting deck of the 206 Allure is nearly 7' (2.13 m) wide.

It's a 15" (38.1 cm) step up to the aft casting deck, which is 6'11" (2.1 m) wide. At its narrowest in the center, it's 15 ½" (39.4 cm) fore to aft and the sides measure 21" (53.3 cm) fore to aft.

Aft on each side, the swim platforms are 11" (27.9cm) fore to aft and 13" (33.0 cm) wide. The three-step reboarding ladder is to starboard. We would like to see a four-step version. The ladder can also be installed to port and an optional kicker motor can be installed on either side.

drainplug

The mechanical drain plug control is conveniently located in the engine well. The non-skid decking on the swim platform is standard.

To keep owners from having to crawl underneath the motor to remove the drain plug, there's a remote mechanical control for it in the aft deck.

drainplug2

The optional \$85 remotely controlled drain plug doesn't get lost because it stays in the boat and is simply in open or closed position.

livewell

The livewell is located between the jump seats. The insulated well has a stay-full overflow system to keep it topped up.

Beneath the large center hatch in the aft casting deck is the 206 Allure's 30-gallon (114 L) livewell. It has a removable divider, an 800-gph (3,028.3-lph) pump, two 800-gph (3,028.3-lph) aerator pumps and two 800-gph (3,028.3-lph) recirculation pumps. We'd like to see a gas strut or a tension hinge to hold the hatch open.

batteries

Just in front of the livewell in the aft cockpit is in-deck storage for the three trolling motor batteries. The starting battery for the main engine is beneath the starboard jump seat.

In turns or when crossing wakes, the 206 Allure felt predictable and solid. She's a fun, easy boat to drive.

running6

Whether racing home with a catch, cruising with the family, or towing a skier, the Triton 206 Allure can do it all and look good doing it.

Triton 206 Allure: Construction

zeroflex not found or type unknown

Triton's "Zero Flex" composite stringer system will be tabbed into this hull providing strength and stiffness. The Triton 206 Allure is all-composite (no wood) construction, hand laid in female molds with a tabbed-in stringer system. Flotation foam is added to conform to USCG regulations for upright and level flotation if swamped.

deckliner not found or type unknown

The pre-wired deck liner being dropped in and attached to the hull of a Triton will be mechanically fastened around the rubrail.

abyc not found or type unknown

Tritons are built to American Boat and Yacht Council (ABYC) standards.

factory not found or type unknown

A computer-controlled waterjet saw precisely cuts openings for storage compartments at the Triton factory.

Triton 206 Allure: Warranty

The Triton 206 Allure comes with a limited lifetime hull warranty for the original owner and a 3-year warranty on most factory installed components.

Triton 206 Allure: Trailer

trailer not found or type unknown

The custom trailer has a swing-away tongue that reduces the overall length of the boat and trailer to 22'11" (6.99 m), enough to fit in most garages.

The 206 Allure comes on a tandem-axle steel trailer with Road Armor finish. The step ahead of the fender is finished in diamond plate and lights up. Up front, there's a swing-away tongue and steps up to the bow. At the stern, the trailer comes with built-in transom straps.

The trailer comes with the following features:

- Aluminum diamond tread plate, front, and rear step pads
- Balanced radial tires
- Custom aluminum wheels
- Vault® hubs with 10-year limited warranty

- Disc brakes
- Ratchet trailer tie-downs
- Seven-pin trailer plug
- Spare aluminum wheel and radial tire
- Spare tire mount (underslung)
- Tandem axle
- TRITON® lighted step pads
- Channel steel frame
- Swing tongue
- LED Trailer tail and reverse lights
- Recessed and waterproof lighting
- Road Armor® protective finish

Triton 206 Allure: Optional Equipment to Consider

Family package (\$2,287)

- Snap-in cockpit carpet
- Bow cushion set
- Ski-tow bar
- Stand-up top w/windshield connector curtain

Triton 206 Allure: Other Options

- Remote drain plug (\$244)

- LED compartment light package (\$85)
- Mercury Smartcraft gauges (\$1,098)
- Canvas boat cover (\$896)
- Custom colors (\$793)
- Hydraulic pedestal base for helm chair (\$329)

Triton 206 Allure: Price

The base price of the Triton 206 Allure is \$55,965 which includes the trailer and Mercury 250 PRO XS 4-stroke outboard with SeaStar hydraulic steering.

paint not found or type unknown

A wide variety of paint and striping schemes are available standard, or the boat can be custom colored.

Triton 206 Allure: Observations

The Triton 206 Allure epitomizes the fish and ski breed with a strong standard-equipment list favoring the fisherman but versatile enough for the whole family. The performance and ride will keep everyone onboard happy.
