Builders Commentary

Seeing your child’s smile when they catch their first fish or feeling the warm sun as you cruise with your family; the all-new LS series from Carolina Skiff is the boat to make this happen. Beyond designing the number one fiberglass outboard-powered boat in North America, our goal at Carolina Skiff is to help create memories that will last a lifetime. Because of this, along with our passion for innovation, we developed the exciting, new LS Series – a vessel that is smoother, quieter and dryer than ever for the whole family to enjoy. Starting with the design, the LS Series features a fresh, new look with a complete liner hull. Not only does the boat’s handling and performance improve with a liner hull, but also its molded-in bow boxes and stern compartments mean there’s plenty of storage. The LS Series’ spacious front and rear decks can be used for fishing and/or sunbathing. Additionally, each model, from the 17 to the 25, comes with a molded-in swim platform and ladder for easy access in and out of the water. At Carolina Skiff, the family is at the heart of everything we create, and to us, the new LS Series represents family, fishing, and fun on the water.
