Builder Commentary

Innovative design that creates maximum spaces perfectly describes the Astondoa 44’ Flybridge. It is a seaworthy cruiser that provides comfortable living areas; she combines a classic style a thrilling ride.

The resin-infused, fiberglass and Kevlar hull was crafted to be both lightweight and durable. The exterior decks were designed to offer plenty of space for owners to entertain guests while enjoying the best views.

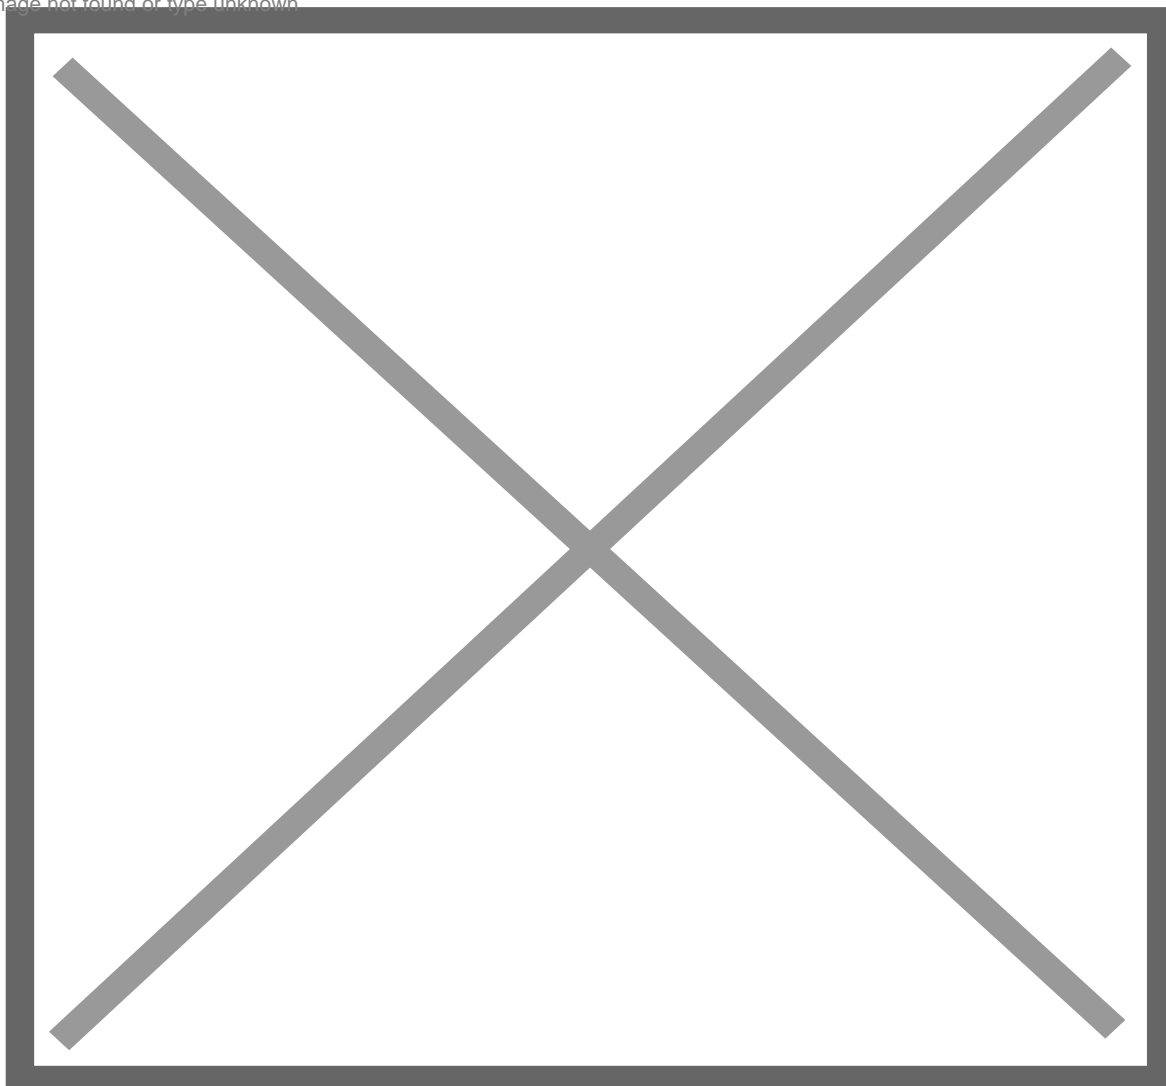

On board the Astondoa 44’ Flybridge, space has been optimized to grant owners and guests plenty of spots where they can enjoy daytime cruising or evening gatherings. Exterior lines give this yacht an elegant, yet modern look. While design features, such as the hull side windows and the square bow, complete its unique styling.

Plush sunbeds located on the bow and flybridge provide ample room for sunbathing and relaxation. Other great features include a second helm station on the flybridge, the outdoor galley, and wet bar. The submersible swimming platform can be customized with a top-quality Burmese teak lining to launch and retrieve a small tender or PWC.

Carefully planned down to the last detail, the 44’ Flybridge is a state-of-the-art craft where technology and elegance live in perfect harmony.
