Builder Commentary

Building on the success of our innovative Element M-Hull,[™] we have created the Element CC6; a self-bailing, center console design aimed at coastal cruising and other day boat activities. Its clean, open layout is enhanced by Bayliner’s innovative design which carries the full beam dimension further forward in the boat than tradition designs. The result is a roomier bow section that considerably expands the comfort and capacity of the bow area. Its bow features an anchor locker and two, large bow storage lockers; all covered by a large bow cushion/sunpad. The boat’s aft section features two jump seats flanking a roomy lined storage compartment ideal for snorkeling gear or other provisions. Dual swim platform extensions make boarding from the water easier. Our optional F6 Fishing Package converts the CC6 to a great bay fishing boat making the CC6 as versatile as it gets.
