Builder Commentary

The distinct styling and space maximization of Bayliner’s VR Series has expanded into a striking new overnighiter in the new VR5 Cuddy. The cabin has a berth to sleep two, and its access door has molded in steps making foredeck access easy through the split, sport windshield. In the cockpit, the boat increases the aft seating area by carrying it back to the aft most point of the running surface—then adding the swim platform. Its the kind of thinking that creates usable space of a boat up to two feet longer. Just step aboard...you’ll feel it.
