Builders Commentary

Riders from around the world will agree, nothing compares to a G23. As the industry-leader in wake and surf wave performance, the Super Air Nautique G23 has redefined what we expect out of a wake boat since its debut. The Rider’s Choice as the 5X Wakesurf and 7X Wakeboard Boat of the Year, the G23 has added to that dynasty in 2020 by bringing onboard a multitude of new features. The refined, luxury feel has been leveled up once again so that this revolutionary boat takes you beyond your expectations.

Standard Features

TOWER SPEAKERS

Bump up the experience and listen to music while you ride with JL Audio® 8.8" M6 tower-mounted speakers available on the Super Air Nautique G23. The tower on the G23 is capable of fitting one or two sets of tower speakers, so choose whichever set-up you need for incredible sound.

AWARENESS CAMERA

The Nautique Awareness Camera on the G23 provides the driver a view of all the action behind the boat. There are multiple options for when the camera feed is displayed on the LINC Panoray, and you can allow the Awareness Camera to act as a backup camera or a view of the action.

TRANSOM STEREO REMOTE

Conveniently located next to the transom seats at the rear of the G23, the transom remote is perfect for controlling the stereo while you're utilizing the swim platform area.

WINDSHIELD

The windshield on the Super Air Nautique G23 is a frameless design that gives the boat a modern look that perfectly incorporates into the exterior. It has adjustable vents for airflow, and the windshield design allows for great visibility when driving and truly adds to the overall aesthetic of the G23.

BIMINI TOP WITH SURF POCKETS

Stay out of the sun on those hot days with the optional bimini top aboard the Super Air Nautique G23. You also have a place to store your wakesurf boards up and out of the way with the convenient surf pockets incorporated into the top of the bimini.

INTUITIVE INTERFACE AND

CUSTOM CONFIGURATIONS

With an intuitive interface and custom configurations, the LINC Panoray Touchscreen is a 12.4" display for you to view information and control the settings of your G23. It's yet another way that the G23 delivers the best possible driving experience on the water.

G23 LOUNGE

With plenty of room for family and friends and ample storage underneath the seats, you'll find the lounge of the Super Air Nautique G23 is the perfect place to spend your summer. Configure it as a lounge to socialize or utilize the flip-up and reversible stern seats to watch all the action; the interior of the G23 is incredibly versatile.

WIRELESS CHARGING

Compatible with most Qi-enabled devices, you can now charge your phone wirelessly right at the helm of the G23 with our wireless charging station. This wireless charging pad is equipped with SeaDek non-skid and an outside edge to prevent your phone from sliding.

JL AUDIO® STEREO

The complete JL Audio® M6 Series Elite stereo package with DSP technology comes standard in the Super Air Nautique G23. This includes the JL Audio MM100s head unit, 6 speakers throughout the boat, a 12" JL subwoofer and an 8-channel JL amplifier. Bump up to our M6 Series Studio Elite package and that gives you an additional 12" subwoofer, the JL Audio Wavefront™ and a JL Audio Monoblock Amplifier as well. This Studio Elite sound package also features increased zone control to configure crisp sound throughout your boat at exactly the volume you and your passengers prefer.

G23 DASHBOARD

The asymmetrical design of the G23 dashboard provides you with clear visibility of the water and the LINC Panoray touchscreen while keeping everything within reach. A phone pocket doubles as a place to keep your drain plug when your boat is out of the water, and a large open pocket area is a great place for sunglasses, hats and other accessories.

REVERSIBLE STERN SEAT

Convert your lounge into the best seat in the house with the reversible stern seat. Quickly slide it out and flip it up so you can comfortably watch all of the action behind the Super Air Nautique G23.

GARMIN® WATCH INTEGRATION

The Nautique Garmin app was created to allow you to remotely control the 2020 G23 while you surf or wakeboard. Change your boat's speed, music volume, NCRS, and NSS settings, quickly use ballast shift or change the wave side and transfer on the fly. This app works with any Garmin Fenix 5 Plus, Fenix 5S Plus or Fenix 5X Plus watch.

SURF PIPE

The experience of surfing behind the G23 is made significantly better with the standard Surf Pipe mounted to the transom. The Surf Pipe sends the exhaust into the propeller stream behind the boat to guide it from disturbing the surfer.

SURF SWITCH

A handheld controller that connects to your wrist while surfing, the Nautique Surf Switch puts you in command so you can easily time your transfers without signaling the driver. Change the side of the boat the wave is on by using the Nautique Surf Switch which comes with the Nautique Surf Select option.

NAUTIQUE CONFIGURABLE RUNNING SURFACE®

The G23 performs flawlessly at any speed and for any activity you're participating in thanks to the Nautique Configurable Running Surface (NCRS). As an extension of the hull, the NCRS deploys and stows automatically based on user-setting conditions. The NCRS allows the wake and wave shape to be customizable, it aids in getting up on plane, and automatically optimizes the running attitude of the boat so it's ideal for the situation and the driver has great visibility.

INTEGRATED STEERING ASSIST

With a thruster mounted at the stern of the boat, the Integrated Steering Assist option provides better maneuverability for your G23. Whether you are docking in tight quarters or simply want more control on the open lake, the steering assist feature allows you to quickly move the transom of the boat to the left or right and greatly improves the overall driving experience.
