Builders Commentary

The Neptunus 750 SkyLounge features contemporary lines, an exciting interior, and an easy 26-knot cruise. This yacht is designed for extended cruising in comfort and combines exceptional sea keeping ability with ease of handling. Her interior features an open layout that is bright, luxurious and inspiring. The Neptunus 750 SkyLounge, with 4 staterooms, 3 heads, and a tastefully-appointed crew cabin, is perfect for cruising or entertaining with family and friends.

The salon takes advantage of the 18'11" beam of the yacht and provides comfortable opposing seating for you and your guests. The salon opens forward to a fully equipped galley on the port, and a large dinette with a panoramic view forward.

Access to the sky lounge is provided via a custom-designed curved stainless steel staircase on starboard. There you will find an impressive, custom-built helm station offering ample space for your choice of electronics and navigational equipment. From the sky lounge, you can enjoy an exquisite view and superb appointments, all in a climate-controlled and whisper-quiet environment.

Below decks, only five steps down from the salon is the full-beam master. Large windows on port and starboard let in natural light during the day, and extensive use of accent lighting creates the perfect evening ambiance. A king-size bed delivers the spacious comfort you deserve, and an ensuite head with a wonderful blend of cherry and marble compliments the warmth of the master stateroom.

For your guests, there are three additional staterooms and two additional heads, all featuring the same exquisite woodwork and appointments that are found throughout the yacht.

The Neptunus 750 SkyLounge. A signature yacht that delivers on our passion for exceptional quality and performance.
