Builders Commentary

The 210 Bay Reef is our first venture into the performance bay boat market adding a pro-level to our extensive and growing line up. The 210 BR represents a bold new approach in hull design. We've kept the time-proven great ride of the 19-degree deadrise hull, but we've added a lifting pad to the bottom and an integrated jack plate to the transom. Now you can have it all with improved performance, fuel economy, and a great ride, and as a bonus, it even sports a bit less draft. The improved hull isn't all you get. The interior has been tweaked and squeezed to get everything a serious fisherman could ask for such as space for 10 7+' rods in the lockable rod boxes, dual live wells, spacious front and rear deck, under gunwale molded-in rod racks, and the first bay boat in its class with a potty room under the console. Yes, this is a family-friendly bay boat as well with features such as fold-away jump seats in the rear deck, and generous cup holders throughout. Check out the pictures and then check out the real deal at a dealer near you.
